5 Strategies to Increase Engagement

- Post at Peak Times:** Schedule posts at 8:00 on Thursday for maximum algorithmic reach.
- Hashtag Optimisation:** Use top-performing tags (#delicious, #beauty, #foodie) mixed with 2–3 niche tags per post.
- Content Diversification:** Introduce Reels (video) — they receive 2× organic reach vs static photos on Instagram.
- Comment Strategy:** Close every caption with a call-to-action question; reply within 60 minutes to boost the post algorithmically.
- Follower Activation:** Run weekly tag-a-friend giveaways and reward top engagers with shoutouts to accelerate organic follower growth.
